## ***Construction underway for expansion of Burcham Hills community***

Construction of the first phase of the \$29 million expansion of Burcham Hills, a Life Plan Community in East Lansing, known as StoneBriar at Burcham Hills, has officially begun.

Significant areas of the existing Burcham Hills building are being renovated or enhanced, including a new dining venue with outdoor seating, wellness and activity spaces, salon and spa, group exercise areas with fitness and strength equipment and a multipurpose space for residents.

When the entire \$29 million project is completed, StoneBriar at Burcham Hills will also feature 44 new upscale independent apartments with either a patio or balcony, underground parking and a new main entrance with porte-cochere. Residents will also have access to other amenities on the Burcham Hills campus, including walking paths, a putting green, library, dining rooms, children's playground and more.

"StoneBriar at Burcham Hills is more than a new building or renovation," says **Pam Ditri**, executive director. "It is a fresh take on senior living, created around the preferences of today's independent, on-the-go senior. We encourage anyone interested to stop by our sales center for updates and ask about joining our Signature Club."

Independent living, assisted living, memory care, short-term rehabilitation services and long-term skilled nursing are available. The campus is located on 38 acres at the corner of Park Lake Road and Burcham Drive.

"StoneBriar at Burcham Hills offers today's seniors a new and energetic lifestyle supported by a solid reputation for quality, with an awareness that as senior living continues to evolve, so will Burcham Hills," says **Jim Savage**, chairman of the board for Burcham Hills.

Life Care Services®, An LCS® Company, will be responsible for the day-to-day management and operations of the community. LCS Development®, An LCS Company, has partnered with the MAYOTTEGroup Architects, Henricksen Interior Design and The Christman Company for development, design and construction.
